## PAPER 39 — THE SERAPHIC HOSTS

---

---

### 5. PLANETARY HELPERS

39:5.1 These seraphim maintain headquarters on the system capitals and, though closely associated with the resident Adamic citizens, are primarily assigned to the service of the Planetary Adams, the biologic or physical uplifters of the material races on the evolutionary worlds. The ministering work of angels becomes of increasing interest as it nears the inhabited worlds, as it nears the actual problems faced by the men and women of time who are preparing themselves for the attempt to attain the goal of eternity.

39:5.2 On Urantia the majority of the planetary helpers were removed upon the collapse of the Adamic regime, and the seraphic supervision of your world devolved to a greater extent upon the administrators, the transition ministers, and the guardians of destiny. But these seraphic aids of your defaulting Material Sons still serve Urantia in the following groups:

39:5.3 1. *The Voices of the Garden.* When the planetary course of human evolution is attaining its highest biologic level, there always appear the Material Sons and Daughters, the Adams and Eves, to augment the further evolution of the races by an actual contribution of their superior life plasm. The planetary headquarters of such an Adam and Eve is usually denominated the Garden of Eden,

[8 And they heard the voice of the LORD God walking in the garden in the cool of day: (Gen. 3:8)]

and their personal seraphim are often known as

the “voices of the Garden.”

These seraphim are of invaluable service to the Planetary Adams in all their projects for the physical and intellectual upstepping of the evolutionary races. After the Adamic default on Urantia, some of these seraphim were left on the planet and were assigned to Adam’s successors in authority.

39:5.4 *2. The Spirits of Brotherhood.* It should be apparent that, when an Adam and Eve arrive on an evolutionary world, the task of achieving racial harmony and social co-operation among its diverse races is one of considerable proportions. Seldom do these races of different colors and varied natures take kindly to the plan of human brotherhood. These primitive men only come to realize the wisdom of peaceful interassociation as a result of ripened human experience and through the faithful ministry of the seraphic spirits of brotherhood. Without the work of these seraphim the efforts of the Material Sons to harmonize and advance the races of an evolving world would be greatly delayed. And had your Adam adhered to the original plan for the advancement of Urantia, by this time these spirits of brotherhood would have worked unbelievable transformations in the human race. In view of the Adamic default, it is indeed remarkable that these seraphic orders have been able to foster and bring to realization even as much of brotherhood as you now have on Urantia.

39:5.5 3. *The Souls of Peace.* The early millenniums of the upward strivings of evolutionary men are marked by many a struggle. Peace is not the natural state of the material realms. The worlds first realize “peace on earth and good will among men” through the ministry of the seraphic souls of peace. Although these angels were largely thwarted in their early efforts on Urantia, Vevona, chief of the souls of peace in Adam’s day, was left on Urantia and is now attached to the staff of the resident governor general.

And it was this same Vevona who, when Michael was born, heralded to the worlds, as the leader of the angelic host,

[13 And suddenly there was with the angel a multitude of the heavenly host praising God, and saying,

14 Glory to God in the highest, and on earth peace, good will toward men (Luke 2:13-14).]

“Glory to God in Havona and on earth peace and good will among men.”

## XII: THE INDIAN INTERPRETATION OF JESUS (Jones 189)

“Don’t you think atonement would mean attunement?” said a Hindu to me one day. He felt his life was “like sweet bells jangled out of tune” by sin and evil, and to his mind, craving inward peace and harmony, atonement would bring attunement to the nature of God—music instead of discord. No wonder peace has been the great thought and craving of India (J 195-96).

39:5.6 In the more advanced epochs of planetary evolution these seraphim are instrumental in

supplanting the atonement idea by the concept of divine attunement as a philosophy of mortal survival.

39:5.7 4. *The Spirits of Trust.*

Suspicion is the inherent reaction of primitive men; the survival struggles of the early ages do not naturally breed trust. Trust is a new human acquisition brought about by the ministry of these planetary seraphim of the Adamic regime. It is their mission to inculcate trust into the minds of evolving men. The Gods are very trustful; the Universal Father is willing freely to trust himself—the Adjuster—to man's association.

39:5.8 This entire group of seraphim was transferred to the new regime after the Adamic miscarriage, and they have ever since continued their labors on Urantia. And they have not been wholly unsuccessful since a civilization is now evolving which embodies much of their ideals of confidence and trust.

39:5.9 In the more advanced planetary ages these seraphim enhance man's appreciation of the truth that uncertainty is the secret of contented continuity. They help the mortal philosophers to realize that, when ignorance is essential to success, it would be a colossal blunder for the creature to know the future. They heighten man's taste for the sweetness of uncertainty, for the romance and charm of the indefinite and unknown future.

39:5.10 5. *The Transporters.* The planetary transporters serve the individual worlds. The majority of enseraphimed beings brought to this planet are in transit; they merely stop over; they are in custody of their own special seraphic transporters; but there are a large number of such seraphim stationed on Urantia. These are the transport personalities operating from the local planets, as from Urantia to Jerusem.

39:5.11 Your conventional idea of angels has been derived in the following way: During moments just prior to physical death a reflective phenomenon sometimes occurs in the human mind, and this dimming consciousness seems to visualize something of the form of the attending angel, and this is immediately translated into terms of the habitual concept of angels held in that individual's mind.

39:5.12 The erroneous idea that angels possess wings is not wholly due to olden notions that they must have wings to fly through the air. Human beings have sometimes been permitted to observe seraphim that were being prepared for transport service, and the traditions of these experiences have largely determined the Urantian concept of angels. In observing a transport seraphim being made ready to receive a passenger for interplanetary transit, there may be seen what are apparently double sets of wings extending from the head to the foot of the angel. In reality these wings are energy insulators—friction shields.

39:5.13 When celestial beings are to be enseraphimed for transfer from one world to another, they are brought to the headquarters of the sphere and, after due registry, are inducted into the transit sleep. Meantime, the transport seraphim moves into a horizontal position immediately above the universe energy pole of the planet. While the energy shields are wide open, the sleeping personality is skillfully deposited, by the officiating seraphic assistants, directly on top of the transport angel. Then both the upper and lower pairs of shields are carefully closed and adjusted.

39:5.14 And now, under the influence of the transformers and the transmitters, a strange metamorphosis begins as the seraphim is made ready to swing into the energy currents of the universe circuits. To outward appearance the seraphim grows pointed at both extremities and becomes so enshrouded in a queer light of amber hue that very soon it is impossible to distinguish the enseraphimed personality. When all is in readiness for departure, the chief of transport makes the proper inspection of the carriage of life, carries out the routine tests to ascertain whether or not the angel is properly encircuited, and then announces that the traveler is properly enseraphimed, that the energies are adjusted, that the angel is insulated, and that everything is in readiness for the departing flash. The mechanical controllers, two of them, next take their positions. By this time the transport seraphim has become an almost transparent, vibrating, torpedo-shaped outline of glistening luminosity. Now the transport dispatcher of the realm summons the auxiliary batteries of the living energy transmitters, usually one thousand in number; as he announces the destination of the transport, he reaches out and touches the near point of the seraphic carriage, which shoots forward with lightninglike speed, leaving a trail of celestial luminosity as far as the planetary atmospheric investment extends. In less than ten minutes the marvelous spectacle will be lost even to reinforced seraphic vision.

39:5.15 While planetary space reports are received at noon at the meridian of the designated spiritual headquarters, the transporters are dispatched from this same place at midnight. That is the most favorable time for departure and is the standard hour when not otherwise specified.

39:5.16 6. *The Recorders*. These are the custodians of the major affairs of the planet as it functions as a part of the system, and as it is related to, and concerned in, the universe government. They function in the recording of planetary affairs but are not concerned with matters of individual life and existence.

39:5.17 7. *The Reserves*. The Satania reserve corps of the planetary seraphim is maintained on Jerusem in close association with the reserves of the Material Sons. These abundant reserves repletely provide for every phase of the manifold activities of this seraphic order. These angels are also the personal message bearers of the local systems. They serve transition mortals, angels, and the Material Sons as well as others domiciled on the system headquarters. While Urantia is, at present, outside the spiritual circuits of Satania and Norlatiadek, you are otherwise in intimate touch with interplanetary affairs, for these messengers from Jerusem frequently come to this world as to all the other spheres of the system.
